

Wishing for the perfect figure?

Introducing the new award winning

Everyday Corset

**The modern, powerful and lightweight corset
for effective daily body-shaping**

Created by Victoria Whiteland, an expert corsetiere with over 17 years experience in figure-enhancing couture corsetry and underwear.

There has never been anything that will alter a woman's shape as beautifully as a corset. We created the concept of The Everyday Corset so that women everywhere could achieve this same result easily, and in an instant.

Throughout history corsets have been our powerful secret to perfecting a sensuous shapely figure with slender waist and hips.

Would you do without support for your bust-line - Why take such a risk with your waist-line?

These days many women are truly concerned about the loss of their youthful figure at an earlier age. Ageing and sagging are part of the natural processes that can affect all of us. We work constantly to evolve our concept of The Everyday Corset. The strongly effective posture support and body-shaping of our unique, modern Everyday Corset is a powerful aid to help you maintain a perfect figure.

The support and shaping once common with the aid of corsets can once again be achieved.

Our unique Everyday Corset is alluring and sexy when worn as underwear, or as part of your daily wardrobe; to complete a sophisticated style for any occasion, at home or at work. In this way, women have used corsetry for centuries to maintain lasting feminine physical beauty.

We strongly believe our modern lightweight Everyday Corset will make a huge difference to women's lives.

If you are wishing for the perfect figure, why wait?
